---

## PROFILE

Diligent and hardworking honours student at Dundalk Institute of Technology, holding a stellar 1.1 degree at computing, currently at cloud computing course. Known for a strong work ethic, I am committed to excellence in academic pursuits.

## TECHNICAL PROFILE

| | |
|---|---|
| **Programming** | Java, C#, JavaScript, HTML, CSS, SQL, C#, Python, |
| **Databases** | MySQL |
| **Systems** | Linux, Window |
| **Collaboration** | Github and Git (VCS) |
| **Self-Taught** | PowerPoint, monogame C#, laravel |
| **Cloud** | azure |
| **Language** | English and Indonesian |

## EDUCATION & QUALIFICATIONS

- **BSc in Cloud Computing**
  - Dundalk Institute of Technology
  - September 2024 - May 2025
  - Learned cloud architecture and how the cloud works
- **BSc in Computing [1.1 honours degree]**
  - Dundalk Institute of Technology
  - September 2021 - May 2024
  - Learned the fundamentals of programming and create a project for the final year

**Key Project: (Gossip)**

It is a whatsapp clone and it is a huge capstone project to end the computing final year.

**Key Coursework:**

- Algorithms (sorting, merge, delete)
- Data Structures (lists, stacks, maps)
- Web Development (made websites and designing, as a result, attempted a frontend challenge NFT-preview)
- Communication Skills (learn to talk)
- Software Project Management (skills to manage a team, scrumwise and time management)
- Web Frameworks (Laravel, blazor)
- Web Services (API usage)
- Database Management (SQL)

**PROJECT EXPERIENCE**

- Created a warehouse based management system for a company ([warehouse](warehouse))
- Made a game called [cardCeption](cardCeption), a memory based game using a framework called monogame
- Made a playlist-to-mp3 converter, get a link of a youtube playlist and the program will convert it to mp3 ([playlist-to-mp3-converter](playlist-to-mp3-converter))
- Design lots of powerpoint slides that are interesting to look at ([PowerPoint slides](PowerPoint slides))
- Host a laravel app on the cloud through a virtual machine, this knowledge could be applied to creating a server

**VOLUNTARY EXPERIENCE**

- Being a mentor at a robocode competition, assisted on more than 50 students in debugging, solve problems and create a friendly environment
- Mentor at CoderDojo, assisted little children 7 - 15 years old at scratch

**INTERESTS, ACHIEVEMENTS & AWARDS**

- Member of the ACM chapter
- Completed the [speechcraft course](speechcraft course), a course to train communication skills.
- Support classmates on solving problems under a short time limit whilst handling my own
